Doosan Light Towers

When your workday doesn't end, or your event heats up after the sun goes down, all you need is Doosan Light Source to work for you. With Doosan lighting solutions for darkness and enhance your productivity through our valued service.

Advantages:

- Single-handed easy operation of raising and lowering of tower in just minutes
- Fully extendable, 360° rotatable, tiltable tower
- Easy transportation with 3 Light Source fitting in a single truck of 25 feet
- Easy maneuverability - Lightest equipment in the market weighing less than a ton (without fuel).
- Easily tow-able at a speed of 30km/hr.
- 62 hours of continuous operation.
- Power-in and power-out option (available on premium model, generator option available)
- UV rays protected curly cord placed within its protection cover.
- High capacity Air Filter for dusty applications
- Patented, fool proof self locking winch
- Luminaries & electrical parts conform to NEMA 6.6 global standards
- Flicker free metal halide white lights and brush less maintenance free alternator
- Can be easily handled with forklifts at job sites.
- One stop destination for complete service support.
- Sales Channel located across India with service area network within 150 kms
- Over 1000 light towers currently operational in mines, airports, industries, roads and civil construction works.
